VOLUNTEER.

Pet Portraits to Promote Adoptions!

What you'll need:

- Paper (or graphic illustration software if you prefer to create a digital drawing.)
- Things to draw, paint, and color with!

What you'll do:

- From the available photos, choose a shelter animal to be the star of your portrait.
- Using the photo, draw or paint your portrait of the pet. It can be as serious or as silly as you want! Shows off your animal's personality to inspire others to adopt them!
- Color in your portrait with markers, crayons, colored pencils, etc.
- Somewhere on your portrait, write why someone should adopt this pet. Include fun facts about the pet from the [Pet Profiles page](#).

After you're done:

These pups are with our friends at [All Breed Animal Rescue](#), hoping their furever family finds them soon. We want to introduce them to potential families through fun portraits that show off their personalities!

Please take a clear photo of your drawing (or send digital file if created on your computer) and email it to: allbarcinfo@gmail.com
