Your generosity, whether through donations, services, or time, has had a profound impact on the success and growth of our students and school community. The partnership we've shared has been invaluable, and I am truly thankful for all that you have done to help us create a positive and enriching environment for our students.

“

IBM is proud to have a strong history of volunteerism – in fact, our first CEO Thomas J. Watson declared a “duty to the community” as an imperative for IBMers in 1931. Partnering with Activate Good has helped us to continue that legacy in the Triangle area. The team organizes impactful projects, allowing our employees to give back to the community while connecting with volunteers from other local companies.

“

As long as I can remember, Activate Good has been a cornerstone in my life; growing up within the organization as a volunteer has been a pivotal factor in determining my prospective career and passions. One of my favorite recent memories is the small but lasting conversation I had with a newly immigrated Dad from India who wanted to learn the ins and outs of teenage life here in America all while volunteering together and helping to serve the community. This past year while serving as an intern with Activate Good, I've had the pleasure of meeting the Mayor of Raleigh, hearing 9/11 testimonials on our annual day of service, becoming handy with a screwdriver for our crafty projects, and gaining professional experience.

”

Cora Altizer, Youth Intern

“

In the Youth Volunteer Corps of the Greater Triangle hosted by Activate Good, I have learned many skills including social skills, leadership skills, collaboration, and active listening. I have gained experiences that I will treasure for the rest of my life such as volunteering at Oak City Cares where I served and greeted guests, weeding plants at both Crowder Park in Apex and at Yates Mill Historic Park in Raleigh, tagging rubber ducks for the Super Duper Duck Splash in Wake Forest, and greeting and assisting young kids at exhibits at Marbles Kids Museum in Raleigh. Over all, my experience in the Youth Volunteer Corps of the Greater Triangle at Activate Good has taught me many skills and given me many incredible experiences!

Future Youth Advisory Board Member
